Dear Mechanical Department Members,

I'm thrilled to announce the release of our departmental e-magazine, 'MECH-VEDHA'. It's a testament to our spirit of innovation and dedication.

Despite challenges, we've excelled this year, thanks to your efforts. From groundbreaking research to academic achievements, each of you has contributed immensely.

To our faculty your commitment to teaching and Mentorship is commendable. Students, your diligence and passion inspire us all.

Let's uphold collaboration, integrity, and excellence as we continue this journey. Thanks to the editorial team for their hard work.

Together, let's push boundaries and make a difference in mechanical engineering. I wish you Best of Luck!

The wind of the world
flows around and
in-between.

The care for one another
deepens as the world flies
by.

an animal instinct we had
almost forgotten
before the earth turned green
again.

A Sense of Place in Wharves and Harbors

The harbor is a place where
people have lived for
centuries. It is a place
where the water is deep
and the sky is blue.
The harbor is a place
where the wind is strong
and the waves are high.
The harbor is a place
where the sun is bright
and the moon is full.

The harbor
is a place
where the
water is deep
and the sky is blue.

The harbor is a place
where the wind is strong
and the waves are high.
The harbor is a place
where the sun is bright
and the moon is full.

The harbor is a place
where the water is deep
and the sky is blue.
